

Anti-Staphylococcus aureus Protein A/SPA Antibody (SAA1452)

Summary

Catalog No. FXX05610

Clone ID SAA1452

Host species Mouse

Conjugation Unconjugated

Species reactivity Staphylococcus aureus (P38507), Staphylococcus aureus (strain N315)

(P99134), Staphylococcus aureus (strain Mu50 / ATCC 700699) (P0A015)

Form Liquid

Storage buffer 0.01M PBS, pH 7.4.

Concentration 2.78 mg/ml

Purity >95% as determined by SDS-PAGE.

Clonality Monoclonal

Isotype IgG2a

Applications ELISA, FCM, WB

Target spa, Immunoglobulin G-binding protein A, Staphylococcal protein A

Purification Protein A/G purified from cell culture supernatant.

Endotoxin level Please contact with the lab for this information.

Accession P38507

Recombinant Proteins & Antibodies

Use a manual defrost freezer and avoid repeated freeze-thaw cycles.

Stability and Storage Store at 4°C short term (1-2 weeks). Store at -20°C 12 months. Store at -

80°C long term.

Note For research use only.
