

InVivo MAb Anti-HMPV F/Fusion Trimer Neutralizing Antibody (FS0299)

Summary

Catalog No. VVV22903

Clone ID FS0299

Host species Human

Species reactivity Human metapneumovirus (HMPV)

Form Liquid

Storage buffer 0.01M PBS, pH 7.4.

Concentration 1 mg/ml

Purity >95% as determined by SDS-PAGE.

Clonality Monoclonal

Isotype IgG1, kappa

Applications ELISA, Neutralization

Target F, Fusion Trimer

Purification Protein A/G purified from cell culture supernatant.

Endotoxin level Please contact with the lab for this information.

Use a manual defrost freezer and avoid repeated freeze-thaw cycles.

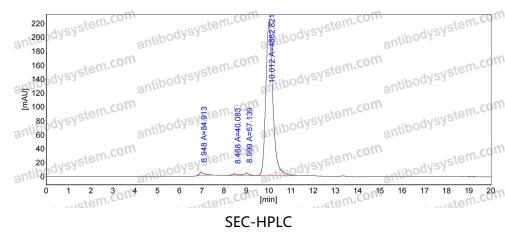

Stability and Storage Store at 4°C short term (1-2 weeks). Store at -20°C 12 months. Store at -

80°C long term.

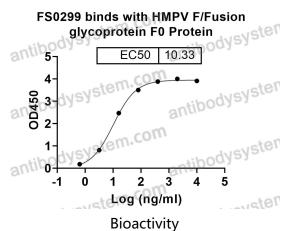

Note For research use only. Not suitable for clinical or therapeutic use.

Data Image

The purity of this product is >95% as determined by SEC-

Detects HMPV F/Fusion glycoprotein F0 Protein in indirect ELISA.
