

# Research Grade Retavibart

## Summary

---

|                           |                                                                                                                        |
|---------------------------|------------------------------------------------------------------------------------------------------------------------|
| <b>Catalog No.</b>        | DVV02837                                                                                                               |
| <b>Alternative Names</b>  | CAS: 3023741-03-6                                                                                                      |
| <b>Clone ID</b>           | Retavibart                                                                                                             |
| <b>Host species</b>       | Human                                                                                                                  |
| <b>Species reactivity</b> | Human respiratory syncytial virus A (strain A2)                                                                        |
| <b>Form</b>               | Liquid                                                                                                                 |
| <b>Storage buffer</b>     | 0.01M PBS, pH 7.4.                                                                                                     |
| <b>Concentration</b>      | 1 mg/ml                                                                                                                |
| <b>Purity</b>             | >95% as determined by SDS-PAGE.                                                                                        |
| <b>Clonality</b>          | Monoclonal                                                                                                             |
| <b>Isotype</b>            | IgG1-kappa                                                                                                             |
| <b>Applications</b>       | Research Grade Biosimilar                                                                                              |
| <b>Target</b>             | F, Fusion glycoprotein F0, Fusion glycoprotein F2, p27, Intervening segment, Pep27, Peptide 27, Fusion glycoprotein F1 |
| <b>Purification</b>       | Protein A/G purified from cell culture supernatant.                                                                    |
| <b>Endotoxin level</b>    | Please contact with the lab for this information.                                                                      |
| <b>Expression system</b>  | Mammalian cells                                                                                                        |
| <b>Accession</b>          | P03420                                                                                                                 |

**Stability and Storage**

Use a manual defrost freezer and avoid repeated freeze-thaw cycles.

Store at 4°C short term (1-2 weeks). Store at -20°C 12 months. Store at -80°C long term.

**Note**

For research use only. Not suitable for clinical or therapeutic use.
