

Anti-Human SETD2 IP Antibody (SAA0221)

Summary

Catalog No.	RHK20201
Clone ID	SAA0221
Host species	Mouse
Species reactivity	Human
Form	Liquid
Storage buffer	0.01M PBS, pH 7.4.
Concentration	1.15 mg/ml
Purity	>95% as determined by SDS-PAGE.
Clonality	Monoclonal
Isotype	IgG2a kappa
Applications	ELISA, IF, IP, IP-MS
Target	Protein-lysine N-methyltransferase SETD2, HYPB, Histone-lysine N- methyltransferase SETD2, KMT3A, SET2, KIAA1732, Huntingtin yeast partner B, HIF-1, Huntingtin-interacting protein B, Huntingtin-interacting protein 1, HIP-1, Lysine N-methyltransferase 3A, SET domain-containing protein 2, p231HBP, SETD2, HIF1, hSET2
Purification	Protein A/G purified from cell culture supernatant.
Endotoxin level	Please contact with the lab for this information.
Accession	Q9BYW2

Recombinant Proteins & Antibodies

	Use a manual defrost freezer and avoid repeated freeze-thaw cycles.
Stability and Storage	Store at 4°C short term (1-2 weeks). Store at -20°C 12 months. Store at -
	80°C long term.
Note	For research use only.
